

BLUE WAVE ANALYTICS REPORT

Prepared For

BlueWave Ports & Logistics LLC – Oman

Prepared By

Henna Fathima

Analysis Period

July 2024 – June 2025

Report Date

September 2026

Confidentiality Statement

This report has been prepared for academic purposes using the FY2025 port operations data provided for the project. It looks at key areas such as port operations, vessel movements, container handling, crane productivity, revenue collection, demurrage, customer exposure, and contract-related revenue leakage. The information used in this analysis is confidential and should be treated accordingly. Where necessary, actual figures may be presented in an aggregated or limited form to protect the underlying data.

1. Executive Summary

- Analyzed 6000 port operation/shipment records across Sohar, Duqm and Salalah ports.
- Total Net Collected Revenue was OMR 1.28M, with Revenue Leakage of 20.88%.
- Demurrage Loss was 48.80%, with total demurrage waived amounting to OMR 182.39K.
- Total TEU handled was 9K, with an average vessel turnaround time of 7 days. There is no duplicate records.

- Identified 60K records with negative or zero Dwell Days requiring data/operational review..
- 6K demurrage exception records were identified where Demurrage Waived exceeded Demurrage Charged.
- Duqm recorded the highest average Dwell Days at 10.08 days, while CR0052 recorded 1.84 TEU per crane per day.
- Customer analysis identified 212.61K overdue exposure, with the Top 10 customers accounting for OMR 298.47K in revenue leakage.

2. Data Cleaning Summary

- Checked and handled missing data.
- Standardized Port, Container, Crane, Cargo, Contract and Industry categories.
- Checked for duplicate records.
- Reviewed Arrival and Departure dates for errors.
- Checked Dwell Days for zero or negative values.
- Reviewed Demurrage Charged vs. Waived for exceptions.
- Validated TEU, revenue, fuel and payment data.
- Created a FY2025 Calendar Table for time-based analysis.

3. Key Metrics

Metric Value

Total TEU Handled OMR 8,694

Gross Handling Revenue OMR 1,700,023.42

Net Collected Revenue OMR 1,280,149.58

Revenue Leakage OMR 298,471.53

Revenue Leakage 20.88%

Demurrage Charged OMR 373,734.58

Demurrage Waived OMR 182,387.30

Demurrage Loss % 48.80

Average Vessel Turnaround Time OMR 7.70

Average Dwell Days 10.01

Negative/Zero Dwell Records - NIL

Demurrage Exception Records 442

Overdue Exposure OMR 70,683.47

Average TEU per Crane per Day 20.90

Fuel Consumption per TEU OMR 1,020,221.58

4. Operational Efficiency

Port Performance

Port	TEU Handled	Average Dwell Days
Sohar	2027	9.84
Muscat	2046	10.01
Salalah	2240	10.15

5. Customer & Contract Risk

Top Customers by Revenue Leakage

Customer	Revenue Leakage
BlueClient_286	OMR 1,643.19
BlueClient_472	OMR 1,891.51
BlueClient_648	OMR 1,650.86
BlueClient_689	OMR 1,793.08
BlueClient_751	OMR 1,750.05

Top Customers by Overdue Exposure

Customer	Overdue Exposure
BlueClient_209	OMR 1,384.04
BlueClient_238	OMR 1,151.47
BlueClient_361	OMR 1,443.34
BlueClient_50	OMR 1,326.41
BlueClient_723	OMR 1,148.27

6. Risk Observations

- Revenue leakage of **OMR 298,471.53** was identified.
- Demurrage loss stood at **48.80%**, mainly due to waived demurrage.
- Customer overdue exposure was **OMR 212,609.44**.
- **Contract Type : Annual** showed the highest revenue leakage.
- **Port Name : Duqm** recorded the highest average Dwell Days at **10.08 days**.
- Some crane operations showed **high fuel consumption or lower productivity** and may need further review.

5. Visual Insights

Monthly Revenue Trend

- TEU movement changed from month to month.
- Some months had higher container activity than others.

Crane Productivity

- Crane performance was different across the ports.
- Some cranes handled more TEUs per day than others.

Port Performance

- Sohar, Duqm and Salalah showed differences in their overall performance.
- Dwell Days and TEU handling varied between the ports.

Customer & Revenue

- Revenue leakage was different across customers and contract types.
- Some customers contributed more to the total revenue leakage.

Demurrage & Overdue Payments

- Demurrage waivers and overdue payments were identified as areas that need attention.

6. Final Audit Recommendations

1. Reduce revenue leakage and improve collection.
2. Monitor demurrage waivers and exceptions.
3. Follow up on overdue customer payments.
4. Improve crane productivity and reduce idle time.
5. Reduce high Dwell Days at the ports.
6. Review high-risk customers and contracts.
7. Use automated checks to identify unusual records.
